Why **easy**move?

We've made it really simple to pick the SEAT Ibiza that's right for you. There are six individual trims, each with their own unique equipment and appeal.

1 Pick the trim that sounds like your kind of car.

2 Choose the engine that suits you.

3 Personalise your Ibiza with your favourite colour.

And that's it. It couldn't be easier to do your thing.

1. Pick your trim.

The Recommended 'On The Road' price includes delivery charge to Dealer and number plates, one year's Road Fund Licence at the 1st year rate (£0 – £2,135 depending on the CO₂ output of the vehicle), and the new vehicle registration fee (£55). VAT is calculated at 20.0%. SEAT may change RRP's at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen SEAT Dealer. Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend on a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. There is a new test used for fuel consumption and CO₂ figures (known as WLTP). The CO₂ figures shown however, are based on a calculation designed to be equivalent to the outgoing (NEDC) test cycle and will be used to calculate vehicle tax on first registration. For more information, please see www.seat.co.uk/wltp or consult your Dealer. Data correct at 06/09/2019.

Vehicle excise duty.

All new vehicles are subject to a form of Vehicle Excise Duty (VED) based on the type of fuel the vehicle uses and its carbon dioxide (CO₂) emission level, measured in grammes per kilometre (g/km). To help you identify the duty you will pay, the DVLA has created thirteen bands.

12-month Road Fund Licence (RFL) rate for petrol and diesel cars: Effective from 1 April 2019 until 31 March 2020.

CO ₂ g/km	1st year rate	Standard rate
0	£0	£0
1	£10	£145
51	£25	£145
76	£110	£145
91	£130	£145
101	£150	£145
111	£170	£145
131	£210	£145
151	£530	£145
171	£855	£145
191	£1,280	£145
226	£1,815	£145
256	£2,135	£145

Please be aware vehicles with a list price (RRP), including options, higher than £40,000 will incur an additional £320 a year in vehicle tax, from the second time the vehicle is taxed. For full details please refer to gov.uk/vehicle-tax-rate-tables.

The Autumn Budget 2017 announced that new diesel vehicles registered after 1 April 2018, that do not meet the RDE2 standard will be charged a supplement on their 1st year rate, to the effect of moving up by one VED band. Currently all SEAT diesel engines are affected by this supplement.

Fuel consumption and CO₂.

Fuel consumption and CO₂ figures are obtained under WLTP technical procedures. Figures shown are for comparability purposes and may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

Please refer to and use the fuel consumption figures marked WLTP and CO₂ emissions figures marked NEDC equivalent for comparisons as of 1 January 2019. These are the official figures for the UK from 1 January 2019 and until further notice. Avoid making comparisons using the fuel consumption figures marked NEDC equivalent after 31 December 2018 or the CO₂ emissions figures marked WLTP before 6 April 2020 - these figures are not official after/until that date and are provided for information only.

Only compare fuel consumption and CO₂ figures with other vehicles tested to the same technical procedures. Due to more realistic test conditions, the fuel consumption and CO₂ measured under WLTP are in many cases higher compared to NEDC equivalent data.

The NEDC CO₂ figures shown however, are based on a calculation designed to be equivalent to the outgoing test cycle and will be used to calculate vehicle tax on first registration. For more information, please see www.seat.co.uk/wltp or consult your Dealer.

Additional information can be found at www.vca.gov.uk

Benefit in kind tax.

How to calculate your liability

The Benefit in Kind (BIK) value is calculated by taking the On The Road (OTR) price of the vehicle, less the RFL and first registration fee. This figure, known as the P11D value, is then multiplied by a percentage value based on the CO₂ emissions of the vehicle.

- For tax year 2019/20, the banding starts at 16%, applicable to cars which emit between 0 and 50 g/km (a 4% surcharge exists on all diesels that emit less than 165 grammes of CO₂ per kilometre) and that do not meet the RDE2 standard
- Cars which emit between 95 and 99 g/km attract a charge of 23%
- Cars which emit between 100 and 104 g/km attract a charge of 24%
Every 5 g/km increase from 105 g/km adds 1% to the banding
- The maximum charge is 37%
- The exact CO₂ figure is always rounded down to the nearest 5 g/km (e.g. emissions of 139 g/km would be charged at the rate for 135 g/km)

To find out how much you will pay, simply multiply the BIK value by the percentage level of income tax that you pay, which will vary depending on where in the UK you pay your tax.

BIK calculation example: Ibiza SE Technology 1.0 TSI 95PS

P11D value (OTR price less RFL and first registration fee)	£16,530.00
CO ₂ emissions (g/km)	104
Company car BIK tax based on CO ₂ emission level	24%
Taxable BIK (for 2019/20 tax year): 24% of £16,530.00	£3,967.20

Annual company car tax (2019/20)

20% income tax: 20% of £3,967.20 £793.44 per annum

Monthly company car tax (2019/20)

20% income tax: £793.44 divided by 12 £66.12 per month

Fuel benefit charge

If your employer provides you with free fuel, this is treated as an additional taxable benefit. The charge for the 2019/20 tax year is based on a set figure of £24,100.00, and uses the same percentage figure used to calculate your company car BIK value.

Fuel benefit charge example: Ibiza SE Technology 1.0 TSI 95PS

The percentage used to calculate the BIK value for the Ibiza SE Technology 1.0 TSI 95PS is 25%. If free fuel is supplied with this car for the 2019/20 tax year, the fuel benefit will be:

£24,100.00 x 25% £6,025.00

20% income tax: £6,025.00 x 20% £1,205.00

Effect of wheel size on CO₂

Choosing larger wheels than standard as options may result in increased fuel consumption as well as higher CO₂ emissions and consequently increased VED and BIK rates. This is due to larger wheels having both more aerodynamic drag and more mechanical drag, resulting in increased rolling resistance and increased wind resistance.

As a result, the VED band that the vehicle falls into may increase. In some instances, the OTR price for the vehicle may increase as a result of the increased VED rate. None of the Ibiza models are affected by this regardless of the optional wheels chosen.

Technology.

Start/stop system.

When the car is stopped, the gear lever set to neutral and the clutch pedal released, the start/stop system switches the engine off. Once the clutch is engaged again, the engine starts automatically.

Energy recovery system.

An energy recovery system works by varying the amount of power absorbed by the alternator. During braking, power which would otherwise be wasted is drawn into the electrical systems and battery. Under acceleration, the alternator draws less energy, so more can be sent to driving the wheels.

The SEAT Warranty

Three-year Warranty.

All new SEATs registered in the UK come with a three year/60,000 miles warranty, which protects your car against the failure of most mechanical and electrical components due to manufacturing defects. This comprises a two-year manufacturer's warranty with unlimited mileage plus a further one-year/60,000 (whichever is soonest).

Dealer Warranty.

Should the mileage exceed 60,000 miles within the first two years, the manufacturer's two-year warranty will still be valid. If an additional warranty for subsequent years or higher mileage is desired, it may be purchased from an authorised SEAT Dealer or repairer, however, this additional warranty must be purchased before the mileage reaches 60,000. Cover is subject to the car being serviced and maintained according to the manufacturer's technical guidelines.

Full details of the three-year warranty are available from your SEAT Dealer or repairer.

Warranties & service plans.

SEAT Extended Manufacturer Warranty

If you take out a SEAT Extended Manufacturer Warranty before your new car is registered, you'll get exactly the same level of cover as the three year warranty, but for up to five years. You can choose a SEAT Extended Manufacturer Warranty to last until the end of the 4th year/up to 75,000 miles or until the end of the 5th year/up to 90,000 miles (whichever is soonest). Please note: SEAT Extended Manufacturer Warranty products are only available at the time of ordering your new SEAT.

Three-year Paint Warranty

The paintwork of all models featured in this price list is covered against manufacturing defects for a period of three years. Naturally, the vehicle must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised SEAT Dealer or repairer for full warranty details.

Twelve-year Body Protection Warranty

The internal body sections and panels of the models featured in this price list are covered against rusting through from the outside for twelve years. Naturally, the vehicle must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised SEAT Dealer or repairer for full warranty details.

SEAT Parts Warranty

SEAT parts and accessories supplied after new vehicle delivery are covered by our 24 months parts warranty.

SEAT Car Insurance

Complimentary drive away cover
