

These specification details do not apply to any particular product which is supplied or offered for sale. The manufacturers reserve the right to vary their specifications, including colours, with or without notice and at such times in such manner as they think fit. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. This publication shall not constitute in any circumstances whatsoever an offer by the Company to any person. All sales are made by the Distributor or Dealer concerned subject to and with the benefit of the standard Conditions of Sale and Warranty given by the Distributor or Dealer, copies of which may be obtained from them on request. This publicity material applies to the UK only Trade Descriptions Act (1968). Whilst efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specification details with the supplying Dealer especially if your model selection is dependent upon one of the features advertised.

# RACING DNA

The new Civic Type R is a car only Honda could make. It reflects our unique thinking, our drive for constant reinvention, re-evaluation and relentless pursuit of better. Our desire to create the perfect sports machine for the road and the track is imprinted into its DNA and drawn into every curve of its body.

It's a car that has been built for the sheer thrill of driving, a car built with soul, a car that speaks to you the way few others can.

# ALWAYS PUSH FOR BETTER

---

Our reputation has been built on our engineering excellence and technical innovation. We love to challenge, to question, always pushing for better, never standing still. The new Civic Type R is the embodiment of everything we have learnt and our ambitions for the future. It has been designed from the ground up, each component created and tested with the purpose of giving you the most exhilarating drive. The result is a car that truly excites, a car that can justifiably be called Type R.

# A RACE CAR FOR THE ROAD

Designed for the pursuit of performance, the muscular shape is as dramatic as it is functional. Every sculpted line and aerodynamic detail work together optimising airflow, boosting down-force and providing improved handling and high speed stability.

High performance technology requires unique, motorsport inspired features such as brake cooling vents, aerodynamic rear wing, lightweight aluminium vented bonnet and centre mounted triple outlet exhaust.

# THE TYPE R EXPERIENCE

Type R is synonymous with the thrill of driving, engineered to provide you with a true feeling of connection with the car and the road. We examined every detail from the car's dynamics to the driving position, to ensure your driving experience is all consuming and exhilarating.

# BORN TO PERFORM

---

Underneath the sculpted bonnet lies a two litre, four cylinder VTEC TURBO engine which develops a maximum power output of 320PS and 400Nm of torque. It's no surprise to discover this gives the Type R the ability to sprint from 0-62mph in 5.8 seconds and achieve 169mph top speed (where conditions allow).

All this power is fed through a smooth and precise six-speed manual gearbox which is optimised by a rev match control system to ensure slick, intuitive gear changes. The final drive is transmitted through an exceptionally responsive helical limited-slip differential to further enhance the performance character.

The ultimate performance test is of course on the track. Not any track, but the iconic Nürburgring, where we pushed the new Type R to the limit. It responded with distinction, slicing almost 7 seconds from its predecessor's time.

# DRIVING DYNAMICS

---

The steering response and cornering ability of the Type R has been greatly enhanced by a new high rigidity body frame and all new suspension system. These work together to deliver razor sharp handling and maximise power transfer to the road.

The front MacPherson strut suspension is set up to reduce torque steer and optimise handling, whilst the new rear independent multi-link suspension system enhances stability under braking and minimises the total roll movement of the car. The suspension system is augmented by an Adaptive Damper System and limited-slip differential which maximise control and stability for a more engaging drive.

In addition to Civic Type R GT in Championship White, model shown is Civic Type R in Sonic Grey Pearl.

# UNIQUELY TYPE R

The purposeful exterior of the Type R is matched only by its dramatic cockpit, a place designed to make your heart beat faster, even before you press the engine start button.

Its motorsport inspired interior has everything you need just where you need it, with clear, easy to read gauges, alloy gear shift knob and a Type R plaque showing your car's individual serial number.

# UNCOMPROMISED INSIDE AND OUT

It may have a motorsport feel but it's not lacking in equipment or comfort. From your race-inspired seat, you are surrounded by premium soft touch materials, climate control, cruise control, electronic parking brake and a new 7" touch-screen Honda CONNECT in-car audio and information system.

We have put the driver at the very heart of our thinking with a selection of driving modes:

Comfort, Sport and track focused +R.

Each mode sets the throttle response, the adaptive dampers, the steering force and feeling of the gear shift, to give the new Type R three different personalities.

The +R mode unleashes the Type R's track orientated potential. It changes the instrument panel display, traction control settings, throttle response and firms up the steering and adaptive dampers, giving you a more direct driving experience.

In motorsport, success is often measured in fractions of a second. This is why tiny details can make big differences to performance and handling.

The Civic Type R is no exception; it's packed with details such as the front air curtain and rear diffuser which enhance the car's performance, whilst the clever roof mounted vortex generators guide air over the back of the car for a more efficient airflow.

At the same time as being passionate about performance we are committed to keeping you safe, which is why a great deal of clever engineering is at work in the new Type R.

As you'd expect from a member of the Civic family, the Type R comes with a host of safety technologies including the latest Honda SENSING suite that includes a Collision Mitigation Braking System, Lane Keeping Assist System and Traffic Sign Recognition.

## MAKE IT YOURS

We have created a range of colours that complement every striking curve and angle of the Type R's bodywork and match its race-bred heritage. Make a bold statement with colour, make it yours.

CHAMPIONSHIP WHITE

CRYSTAL BLACK PEARL

POLISHED METAL METALLIC

SONIC GREY PEARL

RALLYE RED

BRILLIANT SPORTY BLUE METALLIC

# CARBON EXTERIOR PACK

Enhance the already athletic styling of your Type R with our sporty Carbon Exterior Pack.

## CARBON EXTERIOR PACK

This pack is designed to seamlessly fit with the aerodynamic shape of the Type R and features a unique red detail embedded into the carbon.

**Pack Includes:** Carbon door mirror caps, carbon B-pillar decorations, carbon wing spoiler and carbon rear diffuser decoration.

# CARBON INTERIOR PACK

The Carbon Interior Pack highlights the extreme sporty DNA of your Type R by making use of carbon accents around the cockpit.

## CARBON INTERIOR PACK

Inspired by the use of carbon on the exterior styling, this pack brings carbon details to the interior of your Type R.

**Pack Includes:** Carbon interior panels and carbon door sill trims.

# RED ILLUMINATION PACK

Surround yourself with ambient red illumination.

## RED ILLUMINATION PACK

The Illumination Pack uses a combination of lights to give an ambient atmosphere to the inside of your car.

**Pack Includes:** Red front ambient footlight, illuminated door sill trims and red lining illuminations.

## CARBON REAR DIFFUSER DECORATION

This authentic carbon fibre rear diffuser decoration emphasises the powerful styling of your Type R.

## CARBON DOOR MIRROR CAPS

Enhance the sporting theme with these eye catching, hand-made carbon door mirror caps.

## CARBON WING SPOILER

The centre blade of the spoiler is made out of real carbon fibre featuring a red accent.

## TAILGATE SPOILER

With this top of the line tailgate spoiler you can really maximise the extreme look of your Type R.

## SILVER DOOR MIRROR CAPS

These smooth, silver and sporty door mirror caps give your Type R a unique look.

## ELEGANCE FLOOR CARPET

Elegance floor carpets add an extra level of style and comfort to the interior of your Type R.

<sup>†</sup>Fuel consumption figures, sourced from EU regulated laboratory test results, are provided for comparison purposes and may not reflect real-life driving experience.

<sup>\*</sup>Connectivity for Aha™ app (including internet radio) and for internet browsing is through WiFi tethering or mobile WiFi Router. Data usage and roaming charges may result from using applications on Honda CONNECT. We recommend you check your mobile phone subscribed package. Internet browsing function can only be used when the car is stationary. Only iPhone 5 or newer versions with iOS 8.4 or later are compatible with Apple CarPlay. Apple CarPlay features, applications and services may not be available in all areas and are subject to change. To use Android Auto™, you need to download the Android Auto™ app from Google Play™ to your smartphone. Only Android 5.0 (Lollipop) or later versions are compatible with Android Auto™. Android Auto™ availability is subject to change and may vary based on geography.

<sup>‡</sup>A USB flash drive of 256 MB or higher is recommended and some devices may not be compatible.

Apple CarPlay is a trademark of Apple Inc., registered in the U.S. and other countries.

# FOLLOW YOUR DREAMS

---

Dreams can be powerful, they push you to achieve more, to explore new ideas, new technologies and uncover new ways of solving problems. They can be the inspiration and challenge to design and build a true supercar like the dramatic new NSX.

Our dream of a better world for people to enjoy has given life to a humanoid robot called ASIMO, taken flight with HondaJet and created some of the most popular motorbikes on the planet. The knowledge we gain from all the things we do, goes into everything we make, just like the Civic Type R.

# ARE YOU TYPE R?

We created the new Type R with the single minded ambition to give you the best possible driving experience. Engineered to feel just as much at home on the road, as it does on the race track. A car that loves to challenge, to innovate and never follow.

Does that sound like you?
