[#]WLTP Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO₂ values of other cars tested to the same technical standard. The fuel consumption achieved, and CO₂ produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; personal driving style; vehicle load and route characteristics. For more information, contact your local Vauxhall Retailer. WLTP Combined CO₂ (g/km) figures, valid 1 October 2020, are based on a configured vehicle as per pack code for UK with no options fitted.
