How to use this brochure

This brochure showcases some of the highlights of Astra. Note that some of the vehicles shown include options available at extra cost and not all of the features described are available on every model. You can click through to the [Astra Price and Specification Guide](#) for all the latest details.

Keeps it real

Astra is designed to do exactly what it's meant to. With all the innovations you want and the features you need to get a little more from life; the latest tech to keep you in control and in touch, safety systems to make every day easier and frugal engines that drive your running costs down and driving enjoyment up.

Hey good looking

Style. You either have it or you don't – and the Astra has it in bucket loads. The exterior is characterised by fluid, sporty lines and a sculpted body, making it instantly recognisable wherever you drive it.

Got it going on

Styling cues begin with a smart front grille, front bumper design, and LED headlights that light up the road in an altogether more efficient way. The familiar ‘floating roof’ design completes the look, for a drive as pleasing as it is awesome to look at.

Elegant floating roof line

Astra gets an uplifting and streamlined roof design that looks great anywhere.

LED daytime driving lights and headlights*

Headlight technology that saves energy while ensuring it's easier to see and be seen, day or night.

IntelliLux LED® Matrix headlights*

Cutting-edge LED headlights – Astra was the first model in its class to feature this advanced lighting pattern technology.

*Standard on certain models.

Perfectly practical

Sometimes you just need a little extra – whether it's added flexibility or even more space. The Astra Sports Tourer gives you all this and a whole lot more. Load it up and off you go.

Sit down, stretch out...

As you would expect, Astra's modern, ergonomically designed cockpit is kitted out with premium materials and state-of-the-art tech. Not to mention a car-load of creature comforts, including electronic climate control and ergonomic active front seats. Basically, it's less of what you don't want and more of what you do. What's not to love about that?

...And relax

Astra is all about setting new standards for comfort and technology. Why? Simply to make life on the road easier and more enjoyable for you.

- 1. Electronic climate control*:** Sophisticated interior dual-zone temperature control for you and your passengers.
- 2. Driver's ergonomic active seat with wellness functions*:** This category-first driver's front seat option features electric adjustment and is ergonomically certified to help promote a healthy back. It massages, ventilates and memorises personal settings to keep you cool and relaxed.
- 3. Heated windscreen*:** Kiss goodbye to early morning ice scraping with a handy heated windscreen. Pair it with heated front seats and steering wheel, and it's smiles all round.

*Standard on certain models. Ergonomic active front seats are certified by the German AGR (Campaign for Healthier Backs), a European centre of excellence for ergonomic design.

It's all go

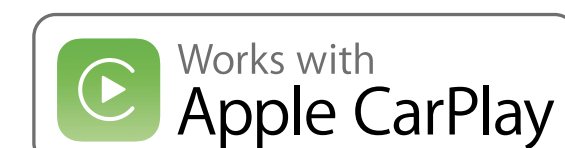

Music to keep you entertained and connectivity features to keep you, well, connected. Astra has everything you need to make more of your journeys.

You'll find a multimedia infotainment system as standard in every model. Featuring a colour touchscreen and full smartphone integration*, it serves up smart entertainment using Apple CarPlay™ and Google Android Auto™.

Topping it off is the Multimedia Navi Pro** with 8-inch colour touchscreen; an ultra-fast processor, dynamic mapping and embedded voice recognition for smarter hands-free control.

In addition, models fitted with this infotainment system also feature an 8-inch digital instrument display that places essential information such as sat nav routing right in your line of sight.

*Please note that compatibility and certain functions may be different depending on the type of device and operating system you're using with the Multimedia systems. Apple CarPlay is a trademark of Apple Inc. Apple and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. Android is a trademark of Google Inc, also registered in the U.S. and other countries. **Available on certain models.

1. Smartphone and connectivity

Every Astra features Bluetooth® connectivity and USB connection. You can also connect your smartphone using Apple CarPlay™ or Android Auto™ to project your phone onto the Multimedia display. Simple access to your phone, music and apps, complete with voice control.

3. Wireless charging**

Oh yes, and there's a handy wireless charging dock to keep your smartphone charged, hands-free and ready when you're on the go.

**Optional on certain models.

2. New Multimedia Navi Pro*

Gives you instant access to live navigation services¹ and driving information², such as live traffic updates², fuel prices², parking information and more.

*Standard on certain models.

4. Premium sound system*

A premium Bose sound system includes six high-performance speakers and Active Sound Management. Go on, turn it up.

¹Requires acceptance of Telenav end user licence agreement and consent to the use of personal data as set out in the Telenav privacy policy. Licence expires end 2031.

²Data is not included and must be provided through connection to the Internet via your smartphone or Wi-Fi hotspot. You may incur mobile network data charges.

Driven differently

Astra is powered by a new generation of ultra-efficient petrol and diesel engines for significantly better fuel economy and even fewer emissions.

Provisional fuel economy[#] and CO₂^{*} results for the Astra. Combined mpg (l/100km): 42.8 (6.6) – 65.7 (4.3). CO₂ emissions: 152 – 113g/km.

[#]Fuel consumption figures are determined according to the WLTP test cycle. ^{*}CO₂ emissions figures are determined according to the WLTP test cycle however, a Government formula is then applied to translate these figures back to what they would have been under the outgoing NEDC test cycle, which WLTP replaces. The correct tax treatment is then applied. Figures are intended for comparability purposes only. The fuel consumption you achieve under real life driving conditions and CO₂ produced will depend upon a number of factors, including the accessories fitted after registration, variations in driving styles, weather conditions and vehicle load. Only compare fuel consumption and CO₂ with other vehicles tested using the same technical procedures. For more information contact your local Vauxhall Retailer.

The Astra powertrain portfolio features a choice of efficient petrol and diesel units including a range of 1.2 litre petrol engines with power outputs from 110PS to 145PS, as well as a 1.5 litre Turbo diesel with up to 122PS and 300Nm of torque.

The Astra is also available with a sophisticated 9-speed auto transmission with three driving modes. As well as a stepless automatic transmission available exclusively with a 145PS 1.4 Turbo petrol engine that generates 236Nm of torque.

It all adds up to make Astra more efficient than it's ever been...

Superb driving dynamics

Experience Astra agility. Up to 145PS and a chassis to handle it that features a new design of front shock absorbers for improved ride comfort.

Efficient engine range

A real champion of fuel economy, with an engine that gives you exceptional efficiency, with no compromise on performance.

Stepless automatic transmission

For maximum efficiency and a smoother drive. Available exclusively with the 1.4 turbo engine, this stepless automatic transmission can shift through an infinite number of gear ratios, or if you're in a sportier mood, be operated manually through the gear shifter.

There when you need it

Built for the fast-moving demands of the 21st century, Astra is made for people who love to get behind the wheel but want the benefits of smart sensing technology.

Here's a (not-so) bright idea for driving at night. Smart headlights that automatically adjust the shape of your high beam headlights to avoid dazzling other drivers. It's called IntelliLux LED Matrix headlight technology* and means you'll never have to switch between high and low beam again. It also gives you more time to react to potential hazards, making for safer driving.

Keeping an ever-watchful, never-tiring electronic eye on the road ahead, Astra's front camera system* supports your own road sense to help prevent scrapes, help you stay in lane, and generally makes life safer for you and your passengers.

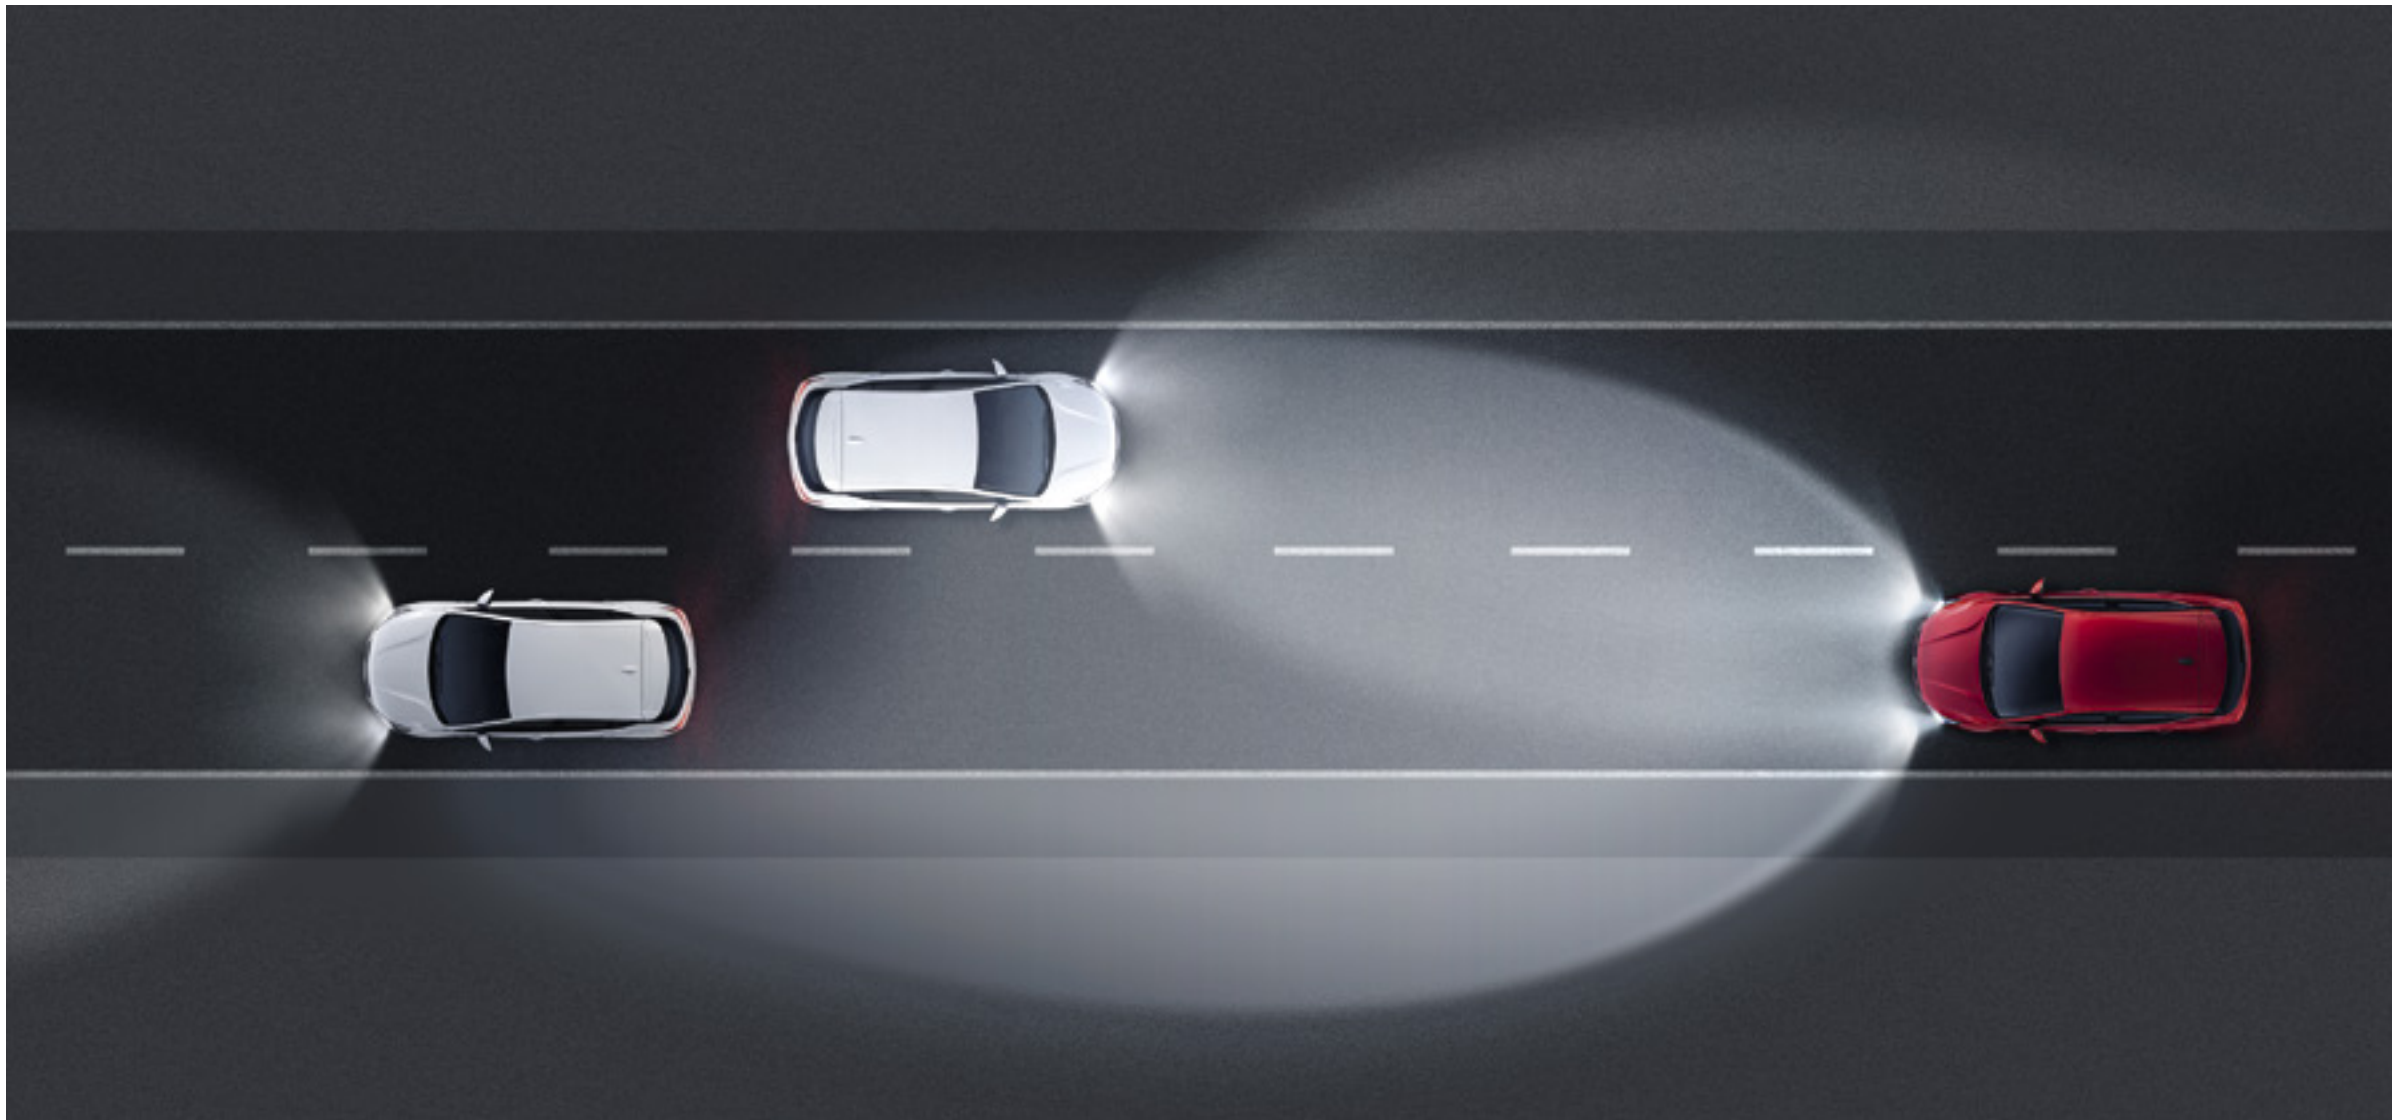

*Optional on certain models only.

IntelliLux LED® Matrix headlights* are made up of 16 separate LED elements. In a millisecond, each individual LED can detect and react to the presence of moving vehicles to automatically and continuously adjust the profile of the beam. This makes sure that your high beam is always glare free, whilst wide and long enough for maximum visibility.

This means that you're always using the safest lighting in any situation. In particular, driving at night is safer for other people and more relaxed for you.

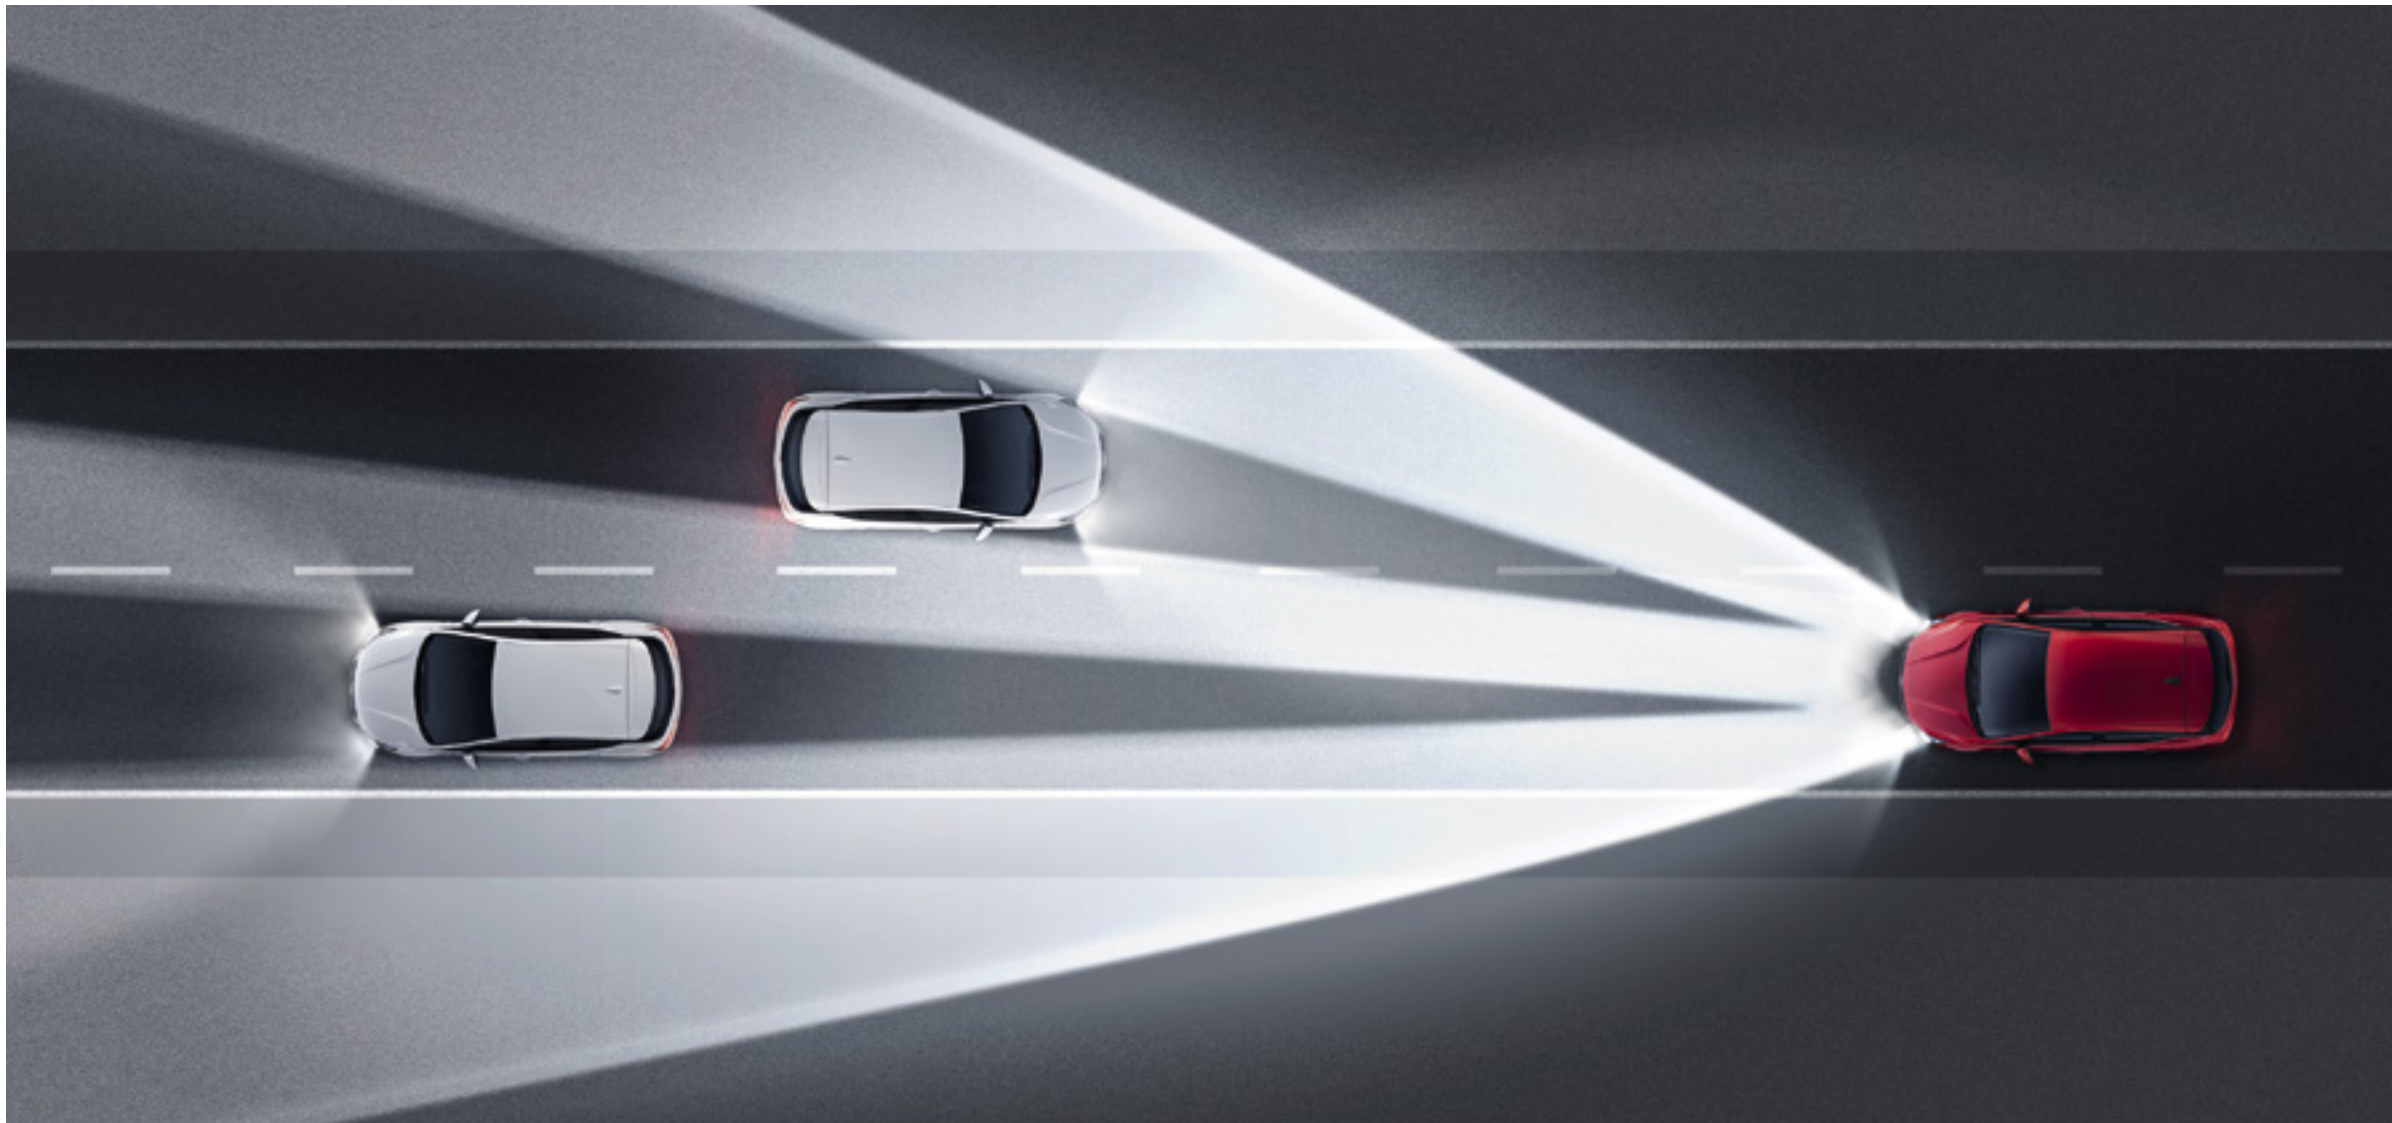

Every type of driving environment has been considered, with eight automatic lighting options, dependent on the type of road and the driving conditions – whether you're in an urban environment or country lane, parking up or driving round a tight bend.

*Optional on certain models only.

Standard halogen headlights

With standard halogen headlights, you have to switch between low and high beam to avoid dazzling drivers in oncoming cars.

IntelliLux LED® Matrix headlights*

With IntelliLux LED Matrix headlights, your high beam automatically dips around other vehicles so you enjoy a wider, perfectly lit field of view.

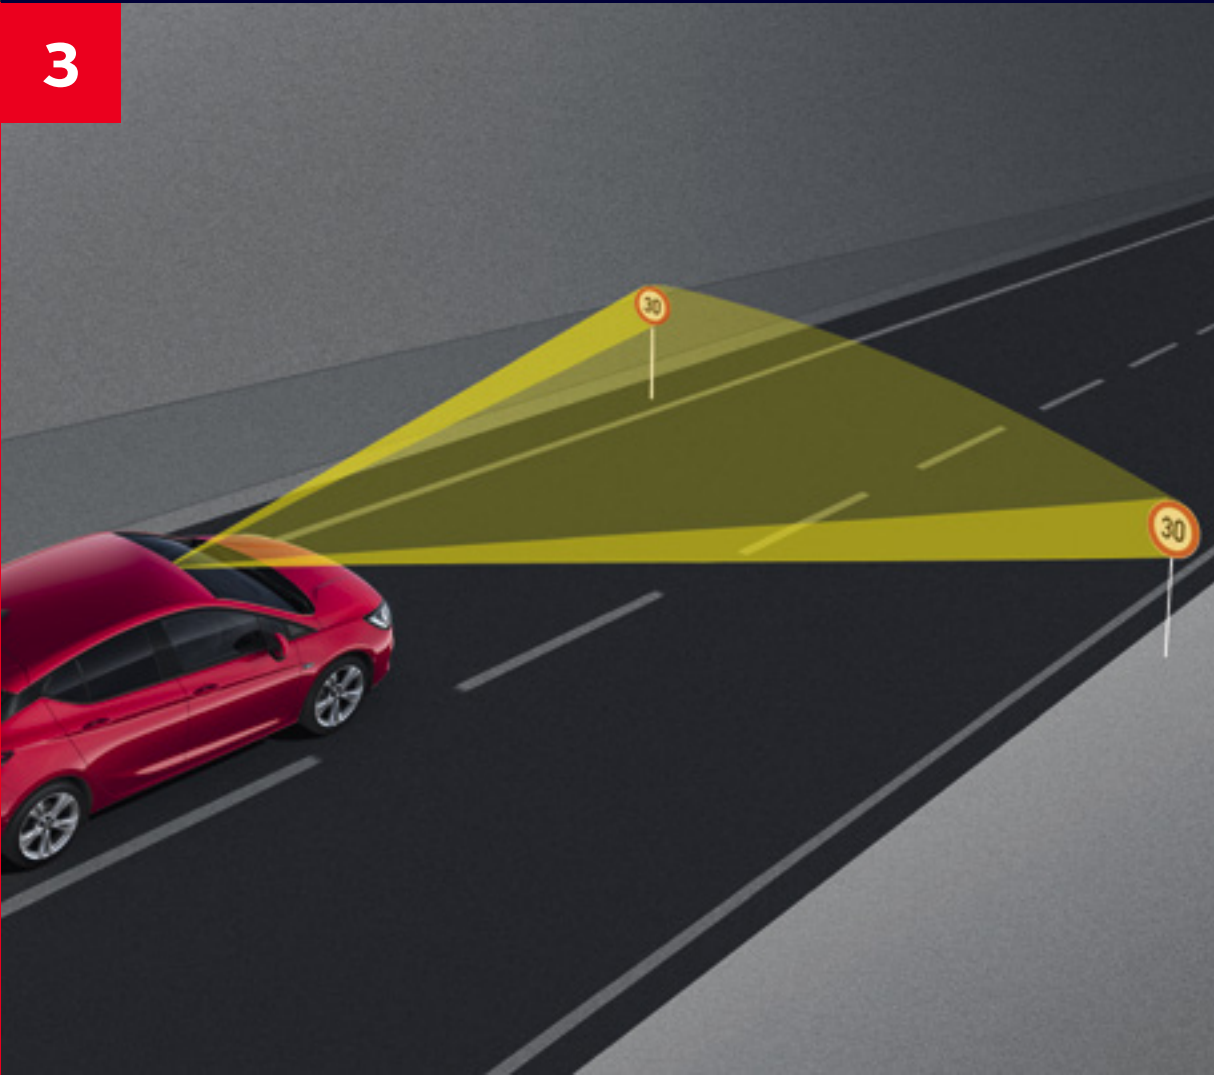

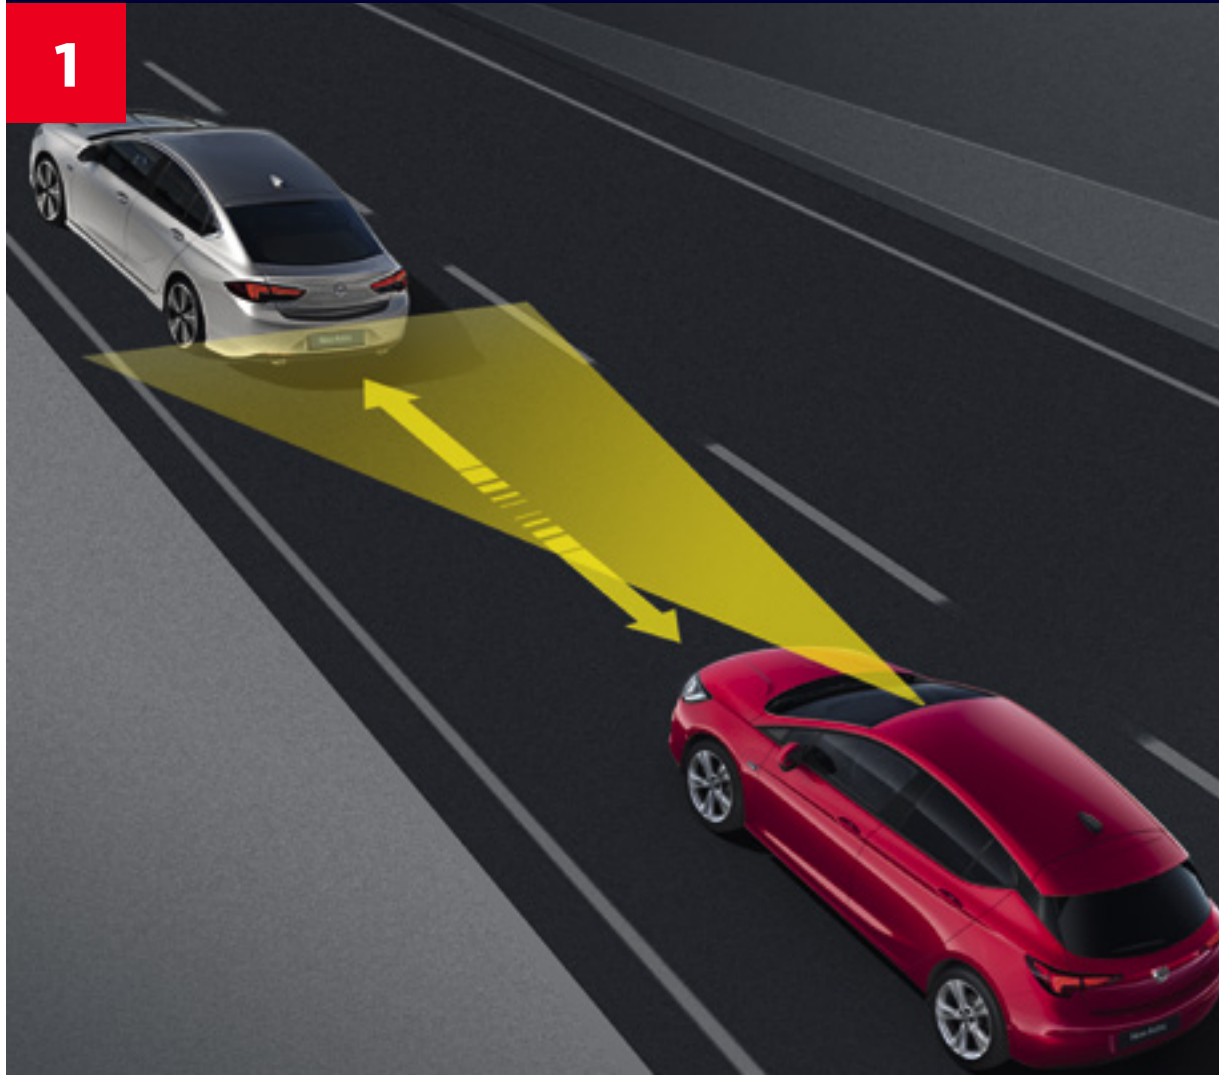

Driver safety

1. Following distance indicator*:
Uses the front camera to measure the distance to the vehicle in front. This distance is shown in seconds in the instrument cluster warning you to slow down.

2. Lane departure warning with lane assist*: Warning signals protect against unintentional gradual drifting – and the steering wheel even nudges gently if you move out of your lane without signaling. The real genius? It won't sound an alarm when you don't need one. For example, if you need to swerve hard to avoid an obstacle.

3. Traffic sign recognition:**
This advanced sign-detection system picks up and displays speed limits and other important traffic signs and even recognises temporary electronic signage.

4. Forward collision alert with auto emergency braking*: No trouble ahead with this system. In busy traffic, it warns you if you approach a vehicle too fast helping to avoid low-speed rear-end collisions by automatically braking if it senses a potential impact. Certain models also feature pedestrian detection as part of the system.

*Standard on certain models only.
**Optional on certain models.

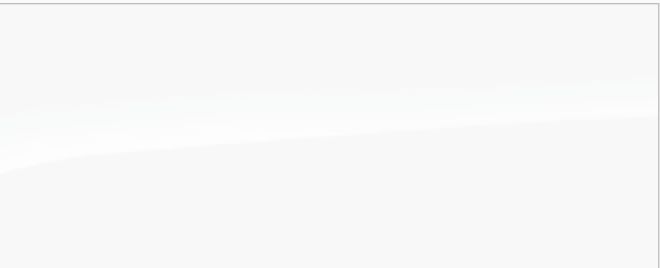

Choose your character

The Astra range gives you a choice of style and technology you've never experienced in this category of car. Choose your model, from the compact Astra hatch to the roomy Astra Sports Tourer. Pick your trim, from entry-level to top-of-the range. Then personalise it to suit you.

Your true colours

Six head-turning paint colours to choose from – from brilliants to gleaming metallics.
