DBS SUPERLEGGERA

EXTERIOR

Carbon fibre exterior styling accessories have been developed to complement our cars. Created by Aston Martin's own design team, the components are produced using hand laid precision laminating techniques to ensure the direction, consistency and quality of the carbon fibre weave.

CARBON FIBRE ENGINE COVER

The clamshell bonnet is a continuation of the fearless design philosophy of the DBS. It provides a piece of theatre when hinging forward to reveal a panoramic view of the magnificent V12 engine beneath. The Carbon Fibre engine cover gives you the opportunity to enhance this experience even further.

The stunning Carbon Fibre engine cover is fitted perfectly to mould and enhance the powerful and sporting aesthetic of the engine and under bonnet area, complimented further by an additional Aston Martin Wings badge that sits harmoniously at the forefront position within the Carbon Fibre.

Product Codes: HY53-08-10126, HY53-08-10021, HY53-08-10007

UNDERBONNET JEWELLERY PACK

Add the ultimate finishing touch with the Q by Aston Martin Underbonnet Jewellery Pack. The pack includes an anodised aluminium oil filler cap and matching dipstick finisher.

A true masterpiece in attention to detail, the Underbonnet Jewellery Pack is a perfect addition to the Carbon Fibre Engine Cover and adds a real piece of theatre when the clamshell bonnet is lifted.

CARBON FIBRE WINGS BADGES

An exclusive release for Aston Martin Accessories, and a true work of art. The Carbon Fibre Wings Badge Set is a small change that makes a big impact. These beautifully machined carbon fibre wings badges add a real edge to the DBS.

Product Code: HY53-78-10040

CARBON FIBRE DOOR HANDLE

Make an impact on a key touch point for DBS. Carbon Fibre exterior door handles are now available as a Q by Aston Martin Accessory. Available as a standalone option, or as a perfect compliment to other Collection from Q by Aston Martin Exterior Carbon Packs.

Product Code: CD33-65-10108

TITANIUM EXHAUST KIT

The DBS Titanium exhaust kit uses motorsport grade titanium to give high strength from a thinner gauge of material, bringing lightweight benefits whilst withstanding high temperatures. This specialist material enables the full system to shed 11.05kg of material weight which is 35% lighter than the stainless steel system.

Not only this, the titanium has superior material qualities, especially when applied to an exhaust. The material gives an enhanced "raspier" character to the exhaust note, naturally producing a more aggressive sound from the quad tailpipes.

The kit includes, muffler, tail pipes and centre pipes and is available as a dealer fit retro fit option for customer cars. For new cars the option should be added to the build options in the normal way.

Note -This kit comes with the titanium bright finishers (black not yet available as a dealer fit option).
