

Our innovative tyre and alloy wheel maintenance plan has been designed to maintain the visual appearance and general condition of your tyres and alloy wheels through regular scheduled check-ups.

Summary

A summary of items excluded are listed below:

General

- Any maintenance treatment/repair request which was not completed during the period specified in the terms and conditions.
- The costs relating to losses normally covered under a comprehensive road risks insurance policy (whether or not an excess applies) resulting from a road traffic accident to the vehicle.
- As a result of fire or theft of the vehicle, tyres or alloy wheels.
- Where the alloy wheel is cracked or distorted.
- General wear and tear, deterioration, oxidisation, hail, corrosion, neglect or a defect.
- Any tyre repairs/replacements if the tread depth is less than the legal limit.
- Any loss of use of your vehicle or any additional costs related to the maintenance or inspection events of any kind.

Your tyre and alloy maintenance plan is not an insurance policy and is not regulated by the Financial Conduct Authority (FCA). It is an agreement to provide routine maintenance inspections and repairs.

A full list of exclusions are detailed in the applicable terms and conditions.

Hassle-free motoring all taken care of.

Cost-effective and simple solutions that keep your vehicle looking great and driving at its best.

£150*
Alloy wheel scuff/damage

*Potential repair costs

£150*
Tyre replacement

Inspections

The plan will provide 4 quarterly maintenance inspections per annum. Each will consist of a visual check on the items listed below to ascertain whether these items require any treatment/repairs.

1. Tyres

- Measure tread depth across all sections of each tyre
- Check for any tyre damage (including punctures)
- Check for any contamination or foreign objects
- Check for any ageing/deterioration of the rubber
- Check for any previous repairs not in accordance with British Standards

2. Alloy wheels

- The general cosmetic condition of the alloy wheels
- Check for any debris marks, surface scuffs, scrapes, scratches or other minor indentations

Treatments/repairs

During the inspection, in the event that our maintenance agent identifies a treatment/repair requirement to the tyre or alloy wheel of your vehicle which can be treated using cosmetic/tyre treatment techniques (as defined in the Terms and Conditions), we will provide:

1. Tyres

Unlimited number of puncture repairs. If a puncture repair cannot be completed, then we will replace up to 2 tyres per annum for the duration of the agreement. All repairs guaranteed for 12 months.

2. Alloy wheels

Up to 4 treatments per annum for the duration of the plan for debris marks, surface scuffs, scrapes, scratches or any other minor indentations.

All treatments/repairs are guaranteed for 12 months.
